

PHYSICIAN'S SURROGACY

We are not just an agency.

We are the nation's only OB-managed **surrogacy agency.**

For over 40 years, there have been many advances made in the science and technology of IVF. Unfortunately, the evolution of the 3rd party reproduction agency model has not paralleled those advances. Today 95% of all surrogacy and egg donor agencies are created and managed by former surrogates, egg donors or intended parents. While the emotional aspects may be relatable, these individuals often lack the clinical background, business skills and infrastructure to effectively manage the many intricacies of this complex medical, legal and financial process.

At Physician's Surrogacy, our OB-managed staff of service-oriented professionals, provide your patients with distinct advantages over the traditional agency model.

Most importantly, we provide the unparalleled advantage of a dedicated, OB-guided, third-party reproduction journey.

Our in-house team of professionals partner in all aspects of the journey, with an all-inclusive, integrated service approach to help guide your patients while minimizing costs, time spent, uncertainties and mitigating risks.
