Your patients come to surrogacy needing predictability — not more unknowns. Physician's Surrogacy supports your clinic with the nation's only OB-managed model, combining physician oversight, coordinated communication, and a clinically structured process from match through delivery.

Patients can choose the standard pathway, or the **Medically Cleared Surrogates Program**, where candidates complete key screening and clearance at **affiliate IVF centers** before being presented for matching. Legal can also be completed efficiently — typically **~2–3 weeks when all parties are aligned** — reducing late-stage surprises and helping protect embryo timelines. **Here's how it all translates into value for your clinic and your patients.**

Benefits to Your Clinic

- **Elevate Patient Care** – Access to the nation's only OB-managed surrogacy model – with physician oversight and a clinically structured process – supports higher satisfaction and more predictable outcomes for your patients and care team.
- **Reduce Late-Stage Medical Rejections** – Candidates are fully screened and cleared at *affiliate IVF centers* before they are presented for matching – reducing late medical rejections that disrupt scheduling and compromise embryo timelines.
- **Maximize Success Rates** – A certified Advisory Board of experts in perinatology, obstetrics, and neonatology collaborates proactively to help minimize pregnancy risks and support stronger outcomes for your patients.
- **Minimize Preterm Delivery Risk** – A preterm delivery rate less than 50% of the national average – the result of continuous physician oversight from match through delivery.
- **Receive Qualified Referrals** – Patients who have not yet created embryos are referred to you as a featured partner – a consistent, qualified referral stream for your clinic.
- **Enhance Monitoring Capabilities** – Increased outside monitoring for surrogates in your area – ensuring closer collaboration and better care coordination throughout the journey.

Benefits to Your Patients

- **Faster Matching, No Upfront Fees** – Average matching time of ~1 week, with no fees until a confirmed match. Families can move forward with clearer next steps – without making a financial commitment before a match is confirmed.
- **Minimized Uncertainty and Risk** – Two pathways, one partner. For families with embryos ready and a tighter timeline, the *Medically Cleared Surrogates Program* offers an *unbeatable opportunity* to begin without the typical 6–12 month match wait – while reducing late-stage medical surprises or match disruptions.
- **Financial Peace of Mind** – Flat-rate pricing and comprehensive newborn insurance policies minimize unexpected costs – and upfront clearance helps families avoid the financial and emotional toll of a late medical rejection after match.
- **Direct Physician Support** – Direct communication with our in-house physicians and transparent, physician-monitored reporting throughout the journey.
- **Personalized and Multilingual Support** – Multilingual staff supports international families, ensuring clear communication and a seamless experience across every stage.
